Overview

This course will introduce you to the main Macroeconomics principles and theories. It will focus on the mechanisms and process that take place in the three main markets existing in a modern economy: the goods market, the financial market and the labor market. My goal is to teach you to think analytically about economic issues. Thus, we will employ economic history as well as basic algebra, calculus, and graphs. I will present content from a variety of sources including economic journals and newspaper, such as the Financial Times, in order to understand contemporary debates related to the way economies and economic policies work in the real world.

Credits: 3 semester credit hours

Prerequisites: An elementary understanding of algebra and geometry

Textbook: *Principles of Macroeconomics*, 9th ed., by Karl E. Case Ray C. Fair and Sharon M. Oster, Pearson Prentice Hall. The textbook can be purchased from the university's bookstore.

Grading Policy

6 Quizzes (best 6 out of 7) (15%)

Each quiz will be taken at the end of each scheduled class. By saying best 6 out of 7, I will drop the lowest one out of your record. The quizzes can be either multiple choices or short essays.

2 Assignments (20%)

I will approximately post the assignment in WebCT two weeks before the deadline for each assignment. Both assignments must be handed in in the lecture class when they are due (See the tentative schedule above) . Late assignment is not accepted. If you cannot come to the class, you may email me your assignment. After receiving your work, I will email you back saying that I already received it. Otherwise, you must email me if you turn in your work, but you do not receive the confirmation email.

Midterm Exam (30%)

Final Exam (35%)

Final and midterm exams will consist of multiple choices and short essays. All the exams, including all quizzes, will be closed book and closed notes.

Final grades are not curved, but will follow an absolute scale according to university's policy.
